XIO OPERATING NOTE

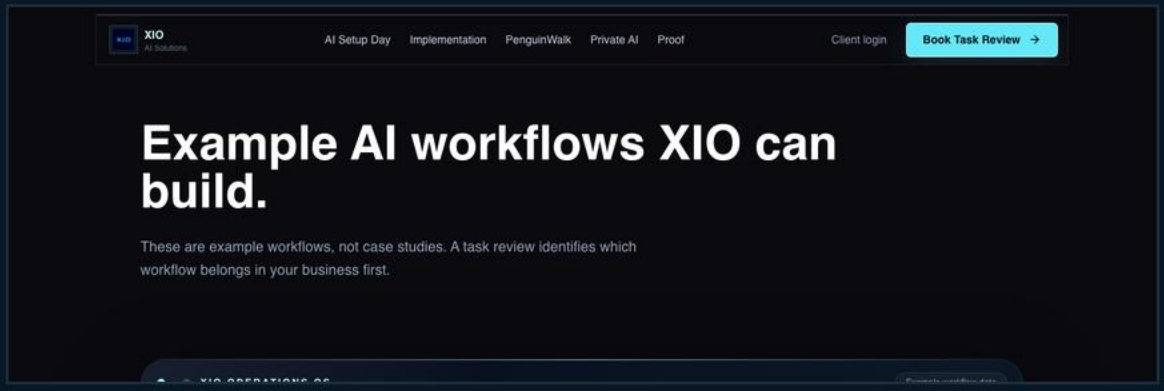

Tool logs are not decision receipts

A trace shows tool calls but not why the workflow chose an action.

THE ARTIFACT

decision span

SOURCE ARTIFACT

Source: OpenAI Agents SDK tracing

RECOGNIZE THE MOMENT

A trace shows tool calls but not why the workflow chose an...

That is when the workflow needs an inspectable boundary.

THE OPERATING PATH

Trace the work before adding scope.

01 Record the input

02 Log the tool call

03 Explain the decision

04 Route the exception

THE STOP CONDITION

Observability makes actions inspectable, not automatically acceptable.

A custom decision event can preserve the rule, evidence, and chosen next action.

THE NEXT DECISION

Record why the action followed from the evidence.

For: agent builder.

PUT IT TO WORK

Record why the action followed from the evidence.

Save this for your next decision span review.
