

XIO OPERATING NOTE

The human-review note belongs beside the recommendation

A helper recommendation sounds
autonomous even though a person must
verify it.

REVIEW THREE THINGS

Artifact. Owner. Stop condition.

01 Open: task-plan review note

02 Owner: small-business operator

03 This sample proves the workflow, not client performance.

THE OPERATING PATH

Trace the work before adding scope.

- 01 Approve the input
- 02 Draft with AI
- 03 Review the facts
- 04 Release the ready output

THE STOP CONDITION

This sample proves the workflow, not client performance.

The boundary appears before the user chooses the next step.

THE NEXT DECISION

Put the review rule where the decision is made.

For: small-business operator.

PUT IT TO WORK
